SALT LAKE CITY
MISSION

Benefits the work of Salt Lake City Mission | www.saltlakecitymission.org

Hello Friend,

I am extending an invitation to be one of this year's sponsors of the **"Putting For Pencils"** Charity Golf Tournament to benefit **Salt Lake City Mission**. I believe you have a great desire to develop local community partnerships that are making a real difference in the lives of children in great need. Last year alone Salt Lake City Mission distributed food, clothing, school supplies, and other necessities to thousands of local children and their families.

With the help of your partnership, this year's Golf Tournament will become a catalyst in bringing our community together in support of local poor children and their continued education. This year's "Back to School" outreach, which the proceeds of the Golf Tournament will support, will serve to prepare our area's poorest children for the "up and coming" school year - by providing a fun filled day while distributing school supplies, clothing, and other essentials to children in great need. Free meals and family activities will also be a part of the day.

In sponsoring the "Putting For Pencils" Annual Charity Golf Tournament you will be joining other local supporters as we reach out together and meet the critical needs of the most vulnerable in our community. As you consider becoming part of these special events you will partner with a great legacy of generous sponsors as "Friends of the Mission" and help Salt Lake City Mission ensure that no child goes back to school unprepared.

We give each supporter due recognition. Numerous business owners, church and community members will be in attendance this year. The event will be covered by local newspapers and television stations. And in highlighting your participation, we are eagerly looking forward to helping many children at this year's event.

If you, or your organization, would like to participate in this year's **"Putting For Pencils"** Charity Golf Tournament as a sponsor, please contact me for complete details - and with any questions you may have. Thank you as you consider supporting this collective effort in working hard to fight poverty right here in Utah.
